

## Maintenance Technician

revi Design's maintenance technicians are quality oriented, self-motivated landscape maintenance employees working directly under the supervision of a qualified maintenance foreman. The technician works as an important member of a team and assists in the day to day maintenance activities at every job site they visit. The technician is able to operate a variety of maintenance equipment and has a general working knowledge of most standard operating procedures for maintenance work. Maintenance technicians work cohesively with their maintenance foreman to develop skills and their career within the company.

Responsibilities include but are not limited to:

- Ability to read maintenance schedule and work orders to determine items to be serviced.
- Operates and/or maintains equipment such as lawn tractors, sprayers, blowers, trimmers, spreaders, hand tools, aerators and seeders.
- Performs routine grounds maintenance or grounds equipment maintenance in accordance with established safety procedures.
- Rake and mulch leaves, aerate, seed, fertilize, mow and/or repair damaged lawns.
- Prune trees and shrubs.
- Hand pruning skills.
- Assist in other divisions (construction/snow removal) as needed.
- Basic knowledge of plant material.

Experience and Education Requirements:

- Ability to lift up to 75 pounds on a routine basis
- Ability to bend and stoop on a continual basis.
- Ability to work outside in all weather conditions.
- Ability to follow oral instructions from Foreman.
- Valid driver's license required.
